

This message is shared with members of the Focal Points and with the Contact Persons of the Member States competent organisations (EFSA Art.36 List).

Dear Contact Person,

We are pleased to inform you that **two new EFSA's on-line courses** are open for registration.

The courses are open to members of the **EFSA Art.36 Competent Organisations, Scientific Committee and Panels, Working Group members, Network members, Art.36 list competent organisations and members of other European agencies and institutions**. Registrants from other affiliations are not eligible.

If the number of eligible registrants exceeds the number of available places, **the first-come, first served principle will be applied**. After the registration deadline, all registrants will be informed, and the selected trainees will receive login data for the e-learning platform.

There is no fee for participation.

[Evidence integration in the IATA framework, focusing on the AOP informed IATA approach on NAMs to address the data gaps identified during the iterative process \(virtual seminar course\)](#)

The course will focus on:

- How to integrate different NAM data in the AOP informed IATA framework
- The concept of QIVIVE and the underlying assumptions
- Limitations and uncertainties

Dates: 21-24 May 2024

Registration deadline: 30 April 2024

[More information](#)

[AOP and approaches for using mechanistic understanding for risk assessment \(virtual seminar course\)](#)

The course will focus on:

- Use common sources of information like AOP Wiki
- Use NAMs to parameterize AOPs
- Develop and assess AOPs

Dates: 4-7 June 2024

Registration deadline: 30 April 2024
